

# Participate in a neuroimaging study at UCLA!

We are seeking healthy older adult participants for a brain imaging study.

We are interested in learning more about the healthy aging brain.

- Participants must be **age 55+**.
- The study will consist of 3 visits to the **Human Brain Mapping Center** at UCLA.
- We will compensate you **\$250** for your time.

To determine eligibility, please contact *The Neuroscience of Memory, Mood, and Aging Lab* at UCLA (PI: Dr. Stephanie Leal)
